the 1990s, the number of people who have been employed in the public sector has increased in all countries.

There are a number of reasons for the increase in public sector employment. One reason is that the public sector has become a more important part of the economy. In many countries, the public sector now provides a significant portion of the total output. This has led to an increase in the number of people who are employed in the public sector.

Another reason for the increase in public sector employment is that the public sector has become a more attractive place to work. This is due to a number of factors, including the fact that the public sector often provides better benefits and job security than the private sector.

Finally, the increase in public sector employment is also due to the fact that the public sector has become a more important part of the economy. This is due to a number of factors, including the fact that the public sector now provides a significant portion of the total output.
